DEEPAK KEVLANI

Phone: +91-7414857161 — Email: deepak.kevlanii@gmail.com — LinkedIn: linkedin.com/in/deepak-kevlani-3514712b3
Address: Jaipur, Rajasthan (302012)

Summary

Full Stack Developer with 1+ years of experience building scalable web applications using Node.js, Laravel, React.js, MySQL, and MongoDB. Experienced in designing RESTful APIs, optimizing databases, integrating third-party services, and delivering production-ready solutions.

Technical Skills

Frontend: HTML5, CSS3, JavaScript, React.js, React Native, Tailwind CSS, Bootstrap, jQuery

Backend: Node.js, Express.js, Laravel, PHP

Database: MongoDB, MySQL

Tools and Platforms: Git, GitHub, Postman, Firebase, REST APIs, Redux

Projects

Jeevantika Innovation (Backend Developer) Oct 2024 – Present

- Designed and developed scalable backend services and RESTful APIs using Node.js, powering the web application and back-office management platform (jeevantikainnovations.com).
- Designed and maintained MySQL database schemas, optimized SQL queries, and developed shared backend modules to support both the web application and admin panel.

Jeevantika (Backend Developer) Oct 2024 – Present

- Developed backend APIs for customer-facing web and Flutter applications, including authentication, profile management, and business workflows (jeevantika.com).
- Contributed to the website frontend using HTML, CSS, and JavaScript, implementing responsive UI components and login pages while collaborating with the Flutter development team.

Bymin (Backend Developer) Jan 2025 – Apr 2025

- Developed backend modules and admin panel functionalities using Laravel for the Bymin platform (bymin.com).
- Integrated Delhivery APIs for shipment creation, waybill generation, pickup scheduling, and delivery tracking, along with PayU payment gateway integration for secure online payments.

Eigen Engineering (Frontend Developer) Feb 2025 – Apr 2025

- Developed responsive website interfaces using HTML, CSS, JavaScript, and Tailwind CSS for eigenengineering.com.
- Implemented cross-browser compatible layouts and optimized frontend performance for a consistent user experience.

Experience

Cubatic Technologies Oct 2024 – Present
Backend Developer *Jaipur, India*

- Developed scalable backend services and RESTful APIs using Node.js while contributing to Laravel-based client applications.
- Built responsive web interfaces using React.js, HTML, CSS, JavaScript, and Tailwind CSS.
- Managed MySQL and MongoDB databases, delivering reliable full-stack web solutions.
